**Circular
on
Treatment Fee at Private Medical, Paramedical and Medical Aid Services**

Previously, Ministry of Health has noticed that some clinics and polyclinics have the treatment fee lists in place for patients' prior notice and decision. However, for some private health treatment facilities, treatment fee lists for patients' prior notice do not exist. This sometimes contributes to the excessive charge over the health treatment service, thus psychologically affecting the patients, especially making the patients unable to pay for the treatment fee.

In order to avoid this impact, Ministry of Health wishes to advise all the owners of the private Medical, Paramedical and Medical aid services to abide by the following instruction:

1. A treatment fee list with exact and accurate price shall be drawn up and submitted to the Hospital Department, Ministry of Health.
2. This list shall be drawn up on a big board attached to the wall of the waiting room visible for patients and clients' prior notice and consideration before deciding to be treated.

Upon receiving this circular, Hospital Department and Municipal-Provincial Health Departments and all private clinic owners shall implement it effectively.
